

	Small Vessel Vasculitis						Medium Vessel Vasculitis	
	Immune Complex Mediated			ANCA Associated				
	Anti-GBM Disease	Cryoglobulinemic Vasculitis	IgA Vasculitis	Microscopic Polyangiitis	Granulomatosis with Polyangiitis	Eosinophilic GPA		
Complement	Anti-GBM	Decreased <b>(especially C4), RF</b>	Decreased C3 and/or C4	Normal Complement	Normal Complement	Normal Complement	Polyarteritis Nodosa	
Laboratory Markers	Anti-GBM Ab	Cryoglobulin	IgA on biopsy	<b>MPO-</b> or PR3-ANCA	MPO- or <b>PR3-</b> ANCA	<b>MPO-</b> or PR3-ANCA Elevated IgE Elevated eos		
Typical Organ Involvement	Pulmonary hemorrhage, Glomerulonephritis	Skin, Glomeruli, Liver, Peripheral Neuropathy	Skin, Gastrointestinal Track, Joints, Glomerulonephritis/ nephropathy	Pulmonary capillaritis, Glomerulonephritis, Necrotizing arteritis	Upper airway, Lungs, Glomerulonephritis, Necrotizing arteritis	Upper airway, Lungs, Skin, CV, Neuropathy, Renal	Arteritis, Non- Glomerulonephritis, Renal Injury <b>Spares the lungs</b>	
Complications		Lymphoprolif Disorders				Thrombosis	Thrombosis, Tissue Necrosis	
Disease Associations	Cigarette smoking, Hydrocarbon inhalation, Pulmonary infections	<b>HCV</b> , HBV, HIV, Autoimmune Disease, Lymphoproliferative disorder	Post-infectious			<b>Asthma Atopy</b>	<b>HBV</b>
